Produced by the Australian Government Publishing Service

PREFACE

South Australian Economic Indicators is a monthly publication which contains the latest available data at the time of preparation for a range of statistical series that have been identified as indicators of economic activity in this State. In a number of cases the figures presented are preliminary and subject to revision in subsequent issues.

Written and graphic commentary have been included for many of the selected series and analysis has been augmented with the calculation of the percentage change from the previous reference period together with the presentation of comparative Australian data.

Time series information has been included to provide a historical perspective on many of the selected indicators. Future issues may be expanded to include further historical data in response to expressed user needs. This product is under continuous review and any suggestions for enhancement will be welcomed.

More detailed information on each series, including explanatory and technical notes, can be obtained from other Australian Bureau of Statistics publications or alternative data sources. To assist those seeking further information a source publication for each of the series has been documented in the statistical summary.

If you have any inquiries concerning this publication please contact the editor, John Callinan, telephone (08) 8237 7307. All requests for statistical information should be directed to the ABS Information Service, GPO Box 2272, Adelaide SA 5001, telephone (08) 8237 7100.

REVIEW

Overview

- Merchandise exports were valued at \$338.6 million in August 1996, a decrease of 6.0% on July and an increase of 3.3% on August 1995. The value of merchandise imports was \$309.9 million, the highest since July 1992 with \$321.9 million of imports.
- The trend estimate of retail turnover increased by 0.6% in August 1996 compared with a 0.7% increase in each of the previous 3 months.
- The trend estimate for new motor vehicle registrations in August 1996 decreased 2.3%.
- The trend for dwelling unit approvals continued to rise with a 1.7% increase in August 1996 but was 15.4% lower than the August 1995 estimate.
- The value of non-residential building approvals in August 1996 increased 45.2% to \$60.9 million.
- The total value of building work commenced during the June quarter 1996 increased by 33.2% to \$370.9 million.
- In the June quarter 1996 the value of engineering construction work done in South Australia increased by 13.9% to \$225.7 million compared with a 19.9% increase nationally.
- The Consumer Price Index increased 0.2% for the September quarter 1996, the lowest quarterly increase recorded since December quarter 1993.
- The Price Index of Materials used in House Building rose 0.3% in August 1996 while the Index of Materials Used in Non-house building rose 0.2%.
- The trend estimate of employed persons declined 0.1% in September 1996.
- The trend unemployment rate for South Australia has decreased from 9.6% in September 1995 to 9.5% in September 1996.
- The proportion of persons working overtime in August 1996 was 14.3%.
- Working days lost through industrial disputes during July 1996 totalled 2,800.
- The number of short term visitor arrivals in July increased 44.6% and was 21.0% higher than in July 1995.
- The trend estimate for the value of owner-occupied housing commitments in August 1996 fell 2.7% to \$216.6 million and was the lowest month in 3 years.
- In August 1996 new finance commitments of South Australians either as personal, commercial finance or lease finance all declined.

State Accounts

NOTE: Deficiencies in the data sources used to estimate gross operating surplus for recent quarters may at times lead to the current price estimates of gross state product GSP(I) being under or over stated for particular States. Consequently, the measured growth rate for constant price GSP(I) for those States will also be affected.

The constant price series for gross state product (GSP) have been labelled as 'experimental'. Users are cautioned that these estimates are derived indirectly by calculating a deflator from the expenditure components. It is emphasised that, at times, movements that can not be fully explained may be introduced into the constant price GSP(I) series through the use of this proxy deflator.

Trend Estimates (Current Prices)

Gross state product (GSP) grew 0.8% in the June quarter compared with the national average of 1.4%. This is the third consecutive quarter in which the rate of increase in GSP has slowed and is considerably below the strong growth of 2.3% recorded in the September quarter 1995.

Wages, salaries and supplements grew 0.8%, slightly lower than in recent quarters. Growth continues to be below the national rate, a trend evident since the December quarter 1993. Growth through the year to June quarter 1996 was 4.8% compared with the national average of 6.2%.

Gross operating surplus grew by 1.0% in the June quarter, continuing a pattern of falling growth rates evident from December quarter 1995. By contrast the national average has remained fairly constant at about 1.8% for the past 3 quarters.

Indirect taxes less subsidies grew by 0.4% in the June quarter, continuing a pattern of falling growth rates evident from the September quarter 1995.

Trend Estimates (Constant Prices)

The experimental GSP at constant prices grew 0.7% in the June quarter and was 4.7% above June quarter 1995. The increase in GSP outstripped that of state final demand for the sixth consecutive quarter although the gap has narrowed significantly over the past 2 quarters.

Growth in state final demand of 0.6% in the June quarter is below the national growth of 0.9% in domestic final demand. Growth in state final demand has been below the national average for 6 consecutive quarters although the gap has narrowed over the past 2 quarters.

Private final consumption expenditure grew 0.4% in the June quarter compared with the national average of 0.8%. Growth in private final consumption expenditure has been fairly constant over the past 3 quarters. Growth through the year to the June quarter 1996 was 2.1%, approximately half the national rate of 4.1%.

Private gross fixed capital expenditure grew 2.8% in the June quarter compared with the national average of 1.8%. Increases in expenditure on equipment and non-dwelling construction more than offset the decline in expenditure on dwellings, which fell for the seventh consecutive quarter.

The decline of 0.1% in public final demand reflects a fall in government final consumption expenditure (which fell for the sixth consecutive quarter) and quite strong growth in public gross fixed capital expenditure.

International Accounts

Exports

In August 1996 the total value of merchandise exports was \$338.6 million, a decrease of 6.0% on July and an increase of 3.3% on August 1995.

The commodity groups showing the largest decreases when compared with the previous month were road vehicles, parts etc., down \$22.2 million, cereals etc. down \$14.9 million and wool and sheepskins, down \$5.2million. These decreases were partly offset by increases in metals and metal manufactures, up \$15.6 million, and wine, up \$6.5 million.

Japan received 15.0%, the European Community 14.8% and the ASEAN countries 12.3% of total exports in August.

Exports from the agriculture, forestry and fishing industry fell by \$32.8 million or 36.3%, mining exports fell by \$3.5 million or 14.4% and manufacturing rose by \$12.3 million or 5.7%.

Imports

The value of merchandise imports for August 1996 was \$309.9 million, the highest since July 1992 with \$321.9 million of imports, a 16.9% increase on the previous month and a 3.5% increase on August 1995. Petroleum and petroleum products accounted for the largest increase of imported merchandise, increasing by \$23.5 million or 74.5% on the previous month.

Consumption and Investment

Retail Turnover

The trend estimate of retail turnover in South Australia increased by 0.6% in August 1996 compared with 0.7% in each of the previous 3 months. The trend estimate for Australia increased by 0.5%.

Over the past 3 months the trend estimate grew by \$14.9 million with increases of \$15.9 million in the food retailing, \$3.2 million in hospitality and services, \$2.0 million in department stores, and \$1.1 million in recreational good retailing. This was partly offset by decreases of \$4.9 million in other retailing group, and \$2.2 million in clothing and soft good retailing.

The seasonally adjusted estimate of retail trade in August 1996 increased 1.8%. In original terms, South Australian retail turnover was \$756.5 million, an increase of 1.6% on August 1995.

New Motor Vehicle Registrations

The trend estimate for new motor vehicle registrations in August 1996 decreased 2.3%. The seasonally adjusted estimate for August 1996 increased by 6.3% from July 1996 and decreased by 4.3% from August 1995.

In original terms there were 3,565 new motor vehicles registered in August 1996, an increase of 3.1% from July 1996 and a decrease of 10.0% on August 1995. For new passenger vehicles, the leading makes registered were Holden (665 vehicles), Mitsubishi (615), Ford (609), Toyota (358) and Hyundai (229).

NEW MOTOR VEHICLE REGISTRATIONS

*Tourist Accommodation*

When the June quarter 1996 is compared with the June quarter 1995, the number of holiday flats, units and houses available for short-term letting increased by 7.8%. Unit nights occupied increased by 13.8% while the unit occupancy rate rose from 35.9% to 38.0%. Accommodation takings increased by 20.0% from \$2.5 million to \$2.9 million while average takings per unit night occupied rose from \$56 to \$59.

Private New Capital Expenditure

The trend estimate (in current prices) for private new capital expenditure in South Australia for the June quarter 1996 was \$476 million. The increase of 4.6% from the previous quarter is a continuation of trend growth which commenced in December quarter 1995. The Australian figure rose by 6.6%. The South Australian total for the quarter now represents 4.7% of the Australian figure.

Private new capital expenditure in original terms for the June quarter 1996 was \$513 million, an increase of 36.8% from the March quarter 1996. Buildings and structures accounted for \$108 million, and equipment, plant and machinery \$405 million. Expenditure for the 12 months to June 1996 fell by 15.3% from 12 months to June 1995 with the Australian figure rising by 10.2%.

PRIVATE NEW CAPITAL EXPENDITURE

Production

Dwelling Approvals

The trend for dwelling unit approvals continued to rise with a 1.7% increase in August 1996 but was 15.4% lower than the August 1995 estimate. In original terms, the number of dwelling unit approvals was 547, an increase of 3.6% from July 1996.

The national trend estimate for the total number of dwelling units approved in August 1996 (10,515) was 0.4% higher than the estimate for July and 2.9% below August 1995. In original terms, South Australia accounted for 4.9% of the total dwelling units approved in Australia during August 1996.

Dwelling Commencements

From the Building Activity Survey, it was estimated that 1,309 dwelling units were commenced in South Australia during the June Quarter 1996. The latest figure represented a rise of 14 dwellings units (1.1% increase) from the previous quarter compared with a 7.6% rise nationally. The latest figure for South Australia was 25.3% below the total for the June quarter 1995 while the national decrease over the 12 month period was 16.0%.

(a) Includes Conversions, etc

Value of Non-residential Building Approvals

In August 1996, the value of non-residential building projects approved in South Australia continued its rise to \$60.9 million. This was 45.2% higher than the July 1996 total and almost double that of the August 1995 total.

Expressed in average 1989-90 prices, the value of non-residential building approvals in South Australia for the June quarter 1996 was \$178.2 million, a 50.8% increase from the March quarter.

Value of Total Building Activity

The total value of building work commenced in South Australia during the June quarter 1996 increased by 33.2% to \$370.9 million. This increase was generally confined to the non-residential building sector (64.8% increase) in particular the shops, other business premises and entertainment and recreational categories. South Australia had a 7.0% decrease in building commencements from the June quarter 1995 while the total for Australia showed a 4.0% decrease. The South Australian share of total building commencements was 5.8% for the June quarter 1996.

The total value of building work done during the June quarter 1996 increased by 7.5% to \$292.2 million compared with an increase of 9.2% nationally. Compared with the June quarter 1995, South Australia had a 13.8% decrease in the value of total building work done while the national movement was an 8.0% decrease.

The total value of building work yet to be done in South Australia was \$407.8 million at the end of June 1996, a rise of 26.8% from the previous quarter while the corresponding national figure remained steady. Expressed as a proportion of the national total, the total value of building work yet to be done in South Australia was 4.4% for the June quarter up from the previous quarter of 3.5%.

VALUE OF BUILDING ACTIVITY

Value of Engineering Construction

In the June quarter 1996 the value of engineering construction work done in South Australia increased by 13.9% to \$225.7 million compared with a 19.9% increase nationally. South Australia had a 5.5% share of the national total of \$4,114.7 million. The value of work commenced during the quarter fell by 36.1% to \$196.1 million for South Australia while the corresponding national figure fell by 31.4% to \$3,072.4 million. The State's proportion of national commencements was 6.8% for the June quarter 1996.

Prices

Consumer Price Index

For the September quarter 1996 the Consumer Price Index (all groups) increased 0.2% for Adelaide compared with an increase of 0.3% for the 8 capital cities. These are the lowest quarterly increases recorded since December quarter 1993. The annual increase was 1.7% for Adelaide and 2.1% for the 8 capital cities.

House Building Materials

The Price Index of Materials used in House Building rose 0.3% for Adelaide, in the month of August, due to the increase in reinforcing steel and hardwood prices. The weighted average for the 6 State capitals rose by 0.2% for the same period.

For the 12 months to August 1996, the Index rose 1.0% for Adelaide, compared with a fall of 0.4% for the weighted average of the 6 State capitals.

Non-house Building Materials

Adelaide recorded an increase of 0.2% in the Price Index of Materials used in Building other than House Building for the month of August, due to an increase in reinforcing steel bar and mesh prices. The Index rose by 0.2% for the weighted average of the 6 State capitals.

The Index shows a rise of 0.5% in Adelaide for the 12 months to August 1996, compared with a rise of 0.4% for the weighted average of the 6 State capitals.

House Prices

The Price Index of Established Houses in Adelaide increased 0.2% whilst the Project Home Index decreased by 0.9% during the June quarter 1996. The weighted average of the 8 capital cities index, over the same period showed a 1.2% and 0.1% increase respectively.

Between June quarter of 1995 and 1996 the Price Index for Established Houses in Adelaide decreased by 3.0% and project homes by 2.2%. Nationally, for the 12 month period, established house prices recorded a 1.1% increase and project homes rose by 0.8%.

Passenger Transport Costs

The passenger transport cost index measures changes in the costs of operating a public transport passenger bus service in Adelaide. Costs covered include labour costs, leasing charges, registration and insurance, repairs and maintenance, fuel and overheads. The index has been compiled on a quarterly basis from September 1995 with a base of 100.0 in 1993-94. The June quarter 1996 index was 104.2, down from 105.6 in March 1996, down from 104.9 in December 1995 and up from the September 1995 index of 102.6.

Labour Force and Demography

Population

At 31 March 1996 the estimated resident population of South Australia was 1,477,700. This was an increase of 0.1% (2,210) persons from the December quarter. The continuing low growth rate for South Australia is attributable to a net outflow in interstate migration of 1,476 persons which was partly offset by a net inflow of overseas migration of 1,370 persons. In the March quarter there was a natural increase of 2,316 persons.

Employment

The trend estimate of employed persons in South Australia has decreased in recent months, thus reversing the continuous growth evident between January 1995 and June 1996. The September 1996 estimate (659,500), however, is still 0.4% higher than the level of 12 months ago.

In September 1996, the trend estimate of employed persons in Australia was 8,365,600. This was 1.1% higher than the level for September 1995. Over the past year, full-time and part-time employment have increased by 0.7% and 2.3% respectively.

EMPLOYED PERSONS

Unemployment

The trend unemployment rate for South Australia has decreased from 9.6% in September 1995 to 9.5% in September 1996. Over the same period, the trend unemployment rate for males has decreased from 10.6% to 10.1%, while the rate for females has increased from 8.3% to 8.8%.

UNEMPLOYMENT RATES
Trend

After remaining at 8.6% in the 4 months to August, the trend unemployment rate for Australia has risen to 8.7% in September 1996.

Overtime

The proportion of employees who worked overtime in South Australia in August 1996 was 14.3%. This was lower than the August 1995 level of 15.9%.

Nationally, the proportion of employees working overtime in August 1996 was 14.9% compared with 16.2% a year earlier.

Employees working overtime in South Australia recorded an average of 6.7 overtime hours per week in August 1996. This was lower than the corresponding national level of 6.8 hours.

Industrial Disputes

There were 2,800 working days lost through industrial disputes during July 1996. At just 2.0% of the national total (137,300 working days lost), South Australia experienced a relatively low level of disputation.

In the 12 months to July 1996, 34,600 working days had been lost due to industrial disputes in South Australia.

*Short term Overseas Visitor Arrivals*

The number of short term visitors arriving in South Australia rose by 44.6% to 6,541 between June and July 1996. This figure was 21.0% higher than the number of arrivals in July 1995, but was only 1.8% of the total number of arrivals for the whole of Australia.

Short term Resident Departures

In July 1996, 12,818 residents of South Australia left to go overseas for a period of less than 12 months, an increase of 15.5% from June 1996. This compares with a decrease of 9.8% for the month in the total number of Australian residents going overseas. However, 6.1% fewer South Australians left in July 1996 than in July 1995.

Incomes

Average Weekly Earnings

The trend estimate of average weekly ordinary time earnings of full-time adult employees in South Australia increased from \$625.40 in February 1996 to \$634.00 in May 1996. Male full-time ordinary time earnings rose from \$658.90 in February 1996 to \$671.70 in May 1996. Over the same period, the increase for females was less pronounced, from \$554.90 to \$555.20.

Between February 1996 and May 1996, the trend estimate of average weekly total earnings of all employees in South Australia increased from \$522.40 to \$531.50.

Since it is an average of earnings across all employees, changes in average weekly earnings may occur through changes in employment as well as changes in pay levels.

Award Rates of Pay

Over the 12 months to August 1996, the weekly award rates of pay index for full-time employees in South Australia increased by 1.5%. This compares with an annual increase in the index of 1.2% for Australia.

For full-time adult male employees in South Australia, the largest annual movement of the index occurred in the electricity, gas and water supply industry division, with an increase of 3.6%.

For full-time adult female employees, the largest annual movement of the index occurred in the public administration and defence industry division, with an increase of 2.1 %.

Financial Markets

Housing Finance

The decline evident since January in the trend estimate for the value of owner-occupied housing commitments continued in August, falling 2.7% to \$216.6 million (13.8% below August 1995) and the lowest month in 3 years. In contrast the national trend increased 2.0% for the month (8.1% above the previous August).

Total housing finance commitments (original figures including alterations and additions) decreased by 8.9% in August to \$236.5 million, 13.8% below the previous August. The most significant contributors to this decrease were commitments for the purchase of established dwellings (the largest category) down 13.9% to \$130.8 and construction of dwellings down 6.0% to \$21.6 million (36.8% below the previous August). Commitments for construction of dwellings in August have declined to 4.2% of the national total. Alterations and additions also decreased, down 13.0% to \$18.9 million.

Commitments for refinancing increased 3.7% to \$59.5 million, 26.7% above the previous August. Refinancing now represents 25.2% of the total new lending commitments for the State, a similar proportion to the national total.

Personal Finance

Total commitments for August decreased 4.2% to \$182.8 million, 12.7% lower than August 1995. The national decreases were 13.5% and 0.3% respectively. South Australian commitments represented 6.6% of the national total.

Fixed loan commitments decreased 10.5% due mainly to a 38.4% fall in refinancing to a level 47.0% below the previous August and the lowest month since April 1994. The falls were partly offset by the increase in commitments for used motor cars and station wagons, the largest category, which rose 6.9% to \$39.1 million during the month while commitments for new motor cars and station wagons decreased 9.5% to \$11.4 million.

PERSONAL FINANCE COMMITMENTS
(ALL LENDERS)
Monthly Total

Revolving credit facilities increased 6.8% to \$74.6 million during the month, 3.4% above August 1995.

Commercial Finance

For the first time in 11 months, total commercial finance commitments has fallen below the corresponding month of the previous year. Total commitments decreased 32.3% to \$444.6 million in August 1996, down 3.7% on August 1995. Nationally the decrease was 24.0% during the month but 2.2% higher than the previous August.

The main decrease occurred with revolving credit facilities which declined 54.4% to \$151.1 million, from the high figure for July. Nationally the decline was 27.8% with South Australia representing 2.8% of the Australian figure. The largest falls were recorded for agriculture, forestry, fishing and hunting down \$98.9 million (86.5%) and manufacturing down \$80.1 million (77.7%).

Commitments under fixed loan facilities decreased 9.7% to \$293.5 million during August (5.3% of the Australian total), and 5.3% below August 1995. The main decreases were for community services, down \$7.0 million (30.9%) after two high months, and agriculture, forestry, fishing and hunting, down \$6.3 million (14.4%). The latter category has fallen over for the past 3 months to previous levels. Also manufacturing, finance, investment and insurance, recreation, personal and other services all had big decreases after recording high figures for July.

COMMERCIAL FINANCE COMMITMENTS
Monthly Total

Lease Finance

In August 1996 the value of goods under new finance lease commitments decreased 17.2% to \$18.9 million continuing the fall from the June 1996 peak. South Australia's proportion of the national total decreased to 3.0%.

New motor cars and station wagons not subject to depreciation, the largest category, decreased 20.0% to \$4.7 million over the month, down 10.0% on the previous August. Those subject to depreciation however increased 8.6% compared with July to be 13.8% above August 1995.

Most categories had substantial decreases for the month except commitments for new and used heavy trucks and construction and earth moving equipment.

Forward Outlook

Composite Leading Indicator

The Composite Leading Indicator (CLI) is a single time series produced by aggregating eight individual economic indicators, and has been developed by the ABS as an experimental series to supplement existing forms of economic analysis and modelling.

The CLI summarises the early signals contained in a selection of economic indicators and is designed to assist the detection of turning points between successive expansions and slow downs of economic activity as measured by constant price GDP(A). It does not attempt to forecast the level of economic activity.

In the June quarter 1996 :

- the experimental CLI rose 0.27%, following a 0.26% rise in the March quarter 1996.
- The CLI is now showing a trough at the September quarter 1995 followed by strong growth..

The quarterly data are released in more detail in the *Australian Economic Indicators* (1350.0). The CLI was the topic of the Focus article in the September 1993 edition of *South Australian Economic Indicators* (1307.4).

Australian Business Expectations

Surveys of business expectations have been available to decision makers for a number of years from several sources. These surveys provided *qualitative* indicators in the form of the net proportion of businesses expecting a rise or fall in future business conditions. Since the December quarter 1993, the ABS has been compiling a *quantitative* indicator of business expectations in the form of an expected weighted aggregate change in a range of economic variables. These data are available on a quarterly basis in *Australian Business Expectations* (5250.0).

AUSTRALIAN BUSINESS EXPECTATIONS SOUTH AUSTRALIA AND AUSTRALIA SALES OF GOODS AND SERVICES EXPECTED PERCENTAGE AGGREGATE CHANGE

Reference Period	Short term		Medium term	
	Expected aggregate change between		Expected aggregate change between	
	June 1996	Sep. 1996	June 1996	Sep. 1996
	and Sep. 1996	and Dec. 1996	and June 1997	and Sep. 1997
	%	%	%	%
South Australia	0.3	2.1	2.3	3.3
Australia	1.6	1.6	3.6	3.1

Short term

Businesses in South Australia expect a rise of 2.1% in sales of goods and services in the December quarter 1996 compared with the September quarter while the national expectation was a 1.6% increase.

Medium term

Businesses in South Australia expect sales of goods and services in the September quarter 1997 to be 3.3% above September quarter 1996. Australia wide the expectation was for 3.1% growth.

PC AUSSTATS

Online access to the latest statistical information from the ABS

The most accessible statistics in Australia . . .

With PC AUSSTATS, getting access to ABS information has never been easier.

Online, all the time . . .

You'll never be without vital information again. PC AUSSTATS will let you access the information you need, when you need it — 24 hours a day, 7 days a week.

You can connect to the ABS database and find the information you want, simply and quickly. And once you've selected the information, downloading to your PC is done for you by the PC AUSSTATS software.

Ready to go . . .

Once downloaded, the data is in .wks format — compatible with all the most common spreadsheet packages available today — so it's ready for instant analysis and manipulation on your own PC.

And with thousands of series covering the most important economic and social data, it's like having your own private ABS library — with librarian.

With the latest information . . .

By using PC AUSSTATS, you will know that you have the latest information available.

The main PC AUSSTATS database is updated daily, giving you full access to the latest facts and figures about the nation.

Plus, you don't have to worry about revisions or corrections to the data — the PC AUSSTATS database is updated in line with any revisions to our printed publications.

. . . and a historical perspective

The database that you access with PC AUSSTATS gives you time series data.

So you get not only the latest information, but also a historical perspective — and this gives you the base you need to perform your own trend analysis.

Historical information is typically available for a 15 year period for all series on PC AUSSTATS — and this includes monthly, quarterly, half yearly and yearly series.

Arrange a demonstration today . . .

For a demonstration of this powerful new information resource, call Graham Duncan on (08) 237 7609.

ABS PUBLICATIONS AND PRODUCTS

Statistics collected by the ABS are generally made available in published form. Some, including those not published, are available in one or more of the following forms: microfiche, magnetic tape, computer printout, CD, floppy disk, photocopy and clerically extracted tabulation.

Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues on Tuesdays and Fridays a *Release Advice* (1105.0) which lists publications to be released within the next few days. The Catalogue and Release Advice are available from any ABS Office.

To receive ABS publications on a regular basis contact the *ABS Publication Mailing Service* on 1800 02 0608.

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office.

The *ABS Information Consultancy Service* has specialist staff to assist and advise clients

with their statistical inquiries. For more detailed information about these services call at the ABS, 55 Currie Street, Adelaide, telephone the Information Officer on (08) 8237 7100, or write to Information Service, ABS, GPO Box 2272, Adelaide SA 5001.

The ABS also provides a *Statistical Consultancy Service*, for expert assistance in survey, sample and questionnaire design, data collection, processing and analysis, and statistical modelling. For more information contact Gary Niedorfer, on (08) 8237 7379.
